

## MedAssets Contract Portfolio Information Sheet

MedAssets is one of the largest national healthcare group purchasing organizations (GPO) in the United States. EMS Redline Participating Members now have access to this extensive portfolio. This information sheet will give you a quick overview of how to access these agreements.

### How To Access:

1. A MedAssets Participation Agreement must be completed and submitted to EMS Redline. Redline will transmit the information to MedAssets within 24 hours. Once received by MedAssets, your company will be placed on their Member Roster the first day of the month following the month received. Once rostered, you have access to all agreements.
2. Please visit the Redline website to determine the agreements that you would like to access. Contact Steve or Denise at Redline, and we will direct you through the process. Some contracts may require additional documentation to gain access.
3. Any of the Redline Preferred Medical Supply Distributors (i.e. McKesson Medical) will be able to access the MedAssets medical supply agreements for you. Your local rep will assist you in the process.

### Agreement Types:

1. Direct: Purchase Direct with Supplier
2. Indirect: Purchase only through Authorized Distributor.
3. Committed: Requires the member to commit a certain percentage of their annual spend for the products covered under the agreement. A commitment form will need to be completed. Denise or Steve will assist in this process.

We hope you enjoy the benefits of our affiliation with MedAssets. Please keep in mind that all pricing and discount information is the property of EMS Redline and MedAssets and must be kept strictly confidential.
